

Are You Open...

...to some fresh  
thinking about PET?

**Ex-Tech**  
**PLASTICS, INC.**  
WHERE GREAT SOLUTIONS BEGIN

# Then it's time to take a look at Ex-Tech, a PET supplier that delivers solutions.

## Ex-Tech performance, value and service—your clear PET advantage.

When it comes to PET, the Ex-Tech name may be new to you. But the fact is, we've been producing the finest sheet and film plastics since 1983. With our unique blend of performance, value and service, you can depend on Ex-Tech to provide competitively priced PET that adds value to your thermoformed products, along with a commitment to service and innovation that sets us apart from other suppliers.

Stretch us with strict production requirements, pressure us with demanding deadlines, or drop the weight of an unexpected order on us. Our multiple-line, 100,000-square foot facility is configured for optimum efficiency, so we can

deliver just in time, all the time. And our central location outside of Chicago gives us fast, efficient access to your plants for optimized turn-times and minimized transportation costs.

When it comes to innovation, you'll appreciate ExTech's expertise and drive to explore new processes and product characteristics. Designed for fast changeovers, our multiple, independent production lines allow us to dedicate specific lines for custom runs or experimental applications.

## Delivering the benefits one roll at a time.

You'll find Ex-Tech brand PET in food, medical and consumer packaging, and in clamshells, tubs, lids, displays, tri-folds and trays that showcase a wide range of retail products. It's ideal for thermoforming lightweight, large capacity, high impact, shatter-resistant containers, with exceptional barrier properties against oxygen and carbon dioxide.

**Ex-Tech APET (Prime)** has exceptional visual transparency and high heat distortion

properties, plus resistance to mineral oils, solvents and acids.

**Ex-Tech RPET (Recycled)** has excellent clarity and high gloss with the impact and tear resistance properties that today's retailers demand.

Ex-Tech also offers specialized services designed to maximize the value of your thermoformed products, including sheeting, slitting, laminating, coating, corona treating, warehousing and special packaging services.

# Get rolling with Ex-Tech PET today!

Whether you're working on an idea that's going to revolutionize the thermoforming industry or trying to find a more profitable way to produce your established PET products, why not make Ex-Tech part of your product solutions process?

**More than PET...**  
**Ex-Tech is your complete plastics source.**

## Polypropylene

- HoPP
- Random CoPP
- Impact CoPP

## PVC

- Weatherable Grade Vinyl
- FDA Vinyl
- UV Inhibited Vinyl
- Low-charging Vinyl
- Static Dissipative Vinyl
- Washable Static Dissipative Vinyl
- Reprocessed Vinyl

## NatureWorks® PLA\*

PLA is derived from an annually renewable resource.
